

FUEL PRO® 385

PRODUCT DATA SHEET

The **FUEL PRO® 385** provides filtration and fuel water separation for diesel engines with flow rates up to 180 gallons per hour.

The Fuel Pro® 385 is designed specifically for Daimler Trucks, with an optional pre-heater, overnight heater and water-in-fuel sensor.

Three layer filter design, with filtration to 10 microns, provides enhanced water separation capabilities for ultra-low sulfur diesel fuel with low interfacial tension.

Applications

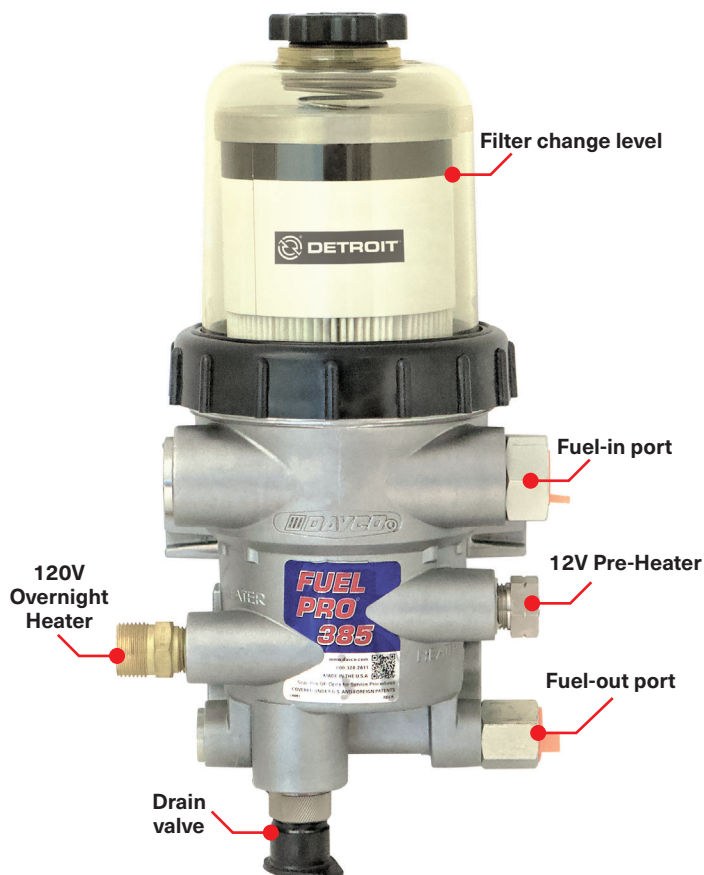

- Daimler Trucks with flow rates up to 180 gph

Options

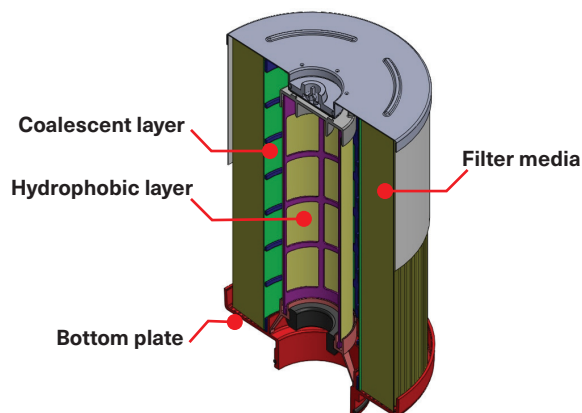

- Base model: unheated
- Heating options:
 - 12VDC Pre-heater: uses ignition switch to heat fuel prior to running the engine
 - 120VAC Overnight heater: prevents gelling while parked overnight
- Water-In-Fuel (WIF) sensor

Benefits

- Seeing is Believing® - see when NOT to change your filter
- Protects diesel engines from contaminants
- Reduces maintenance downtime
- Visual troubleshooting
- Environmentally friendly filter change
- Simple filter priming for easier starts
- Biodiesel up to B20 compatible

FUEL PRO® 385

Specifications

Height, overall	15.39 inches (390.8 mm)
Depth, overall	6.58 inches (167.1 mm)
Width, maximum	7.19 inches (182.63 mm)
Weight, dry	Approx. 8-12 lbs
Minimum service height	3.5 inches (38.1mm)
Max fuel flow	180 gph
Pre-heater	12VDC, 150W
Overnight heater	120VAC, 95W

Filtration Performance (10 micron at 174 GPH)

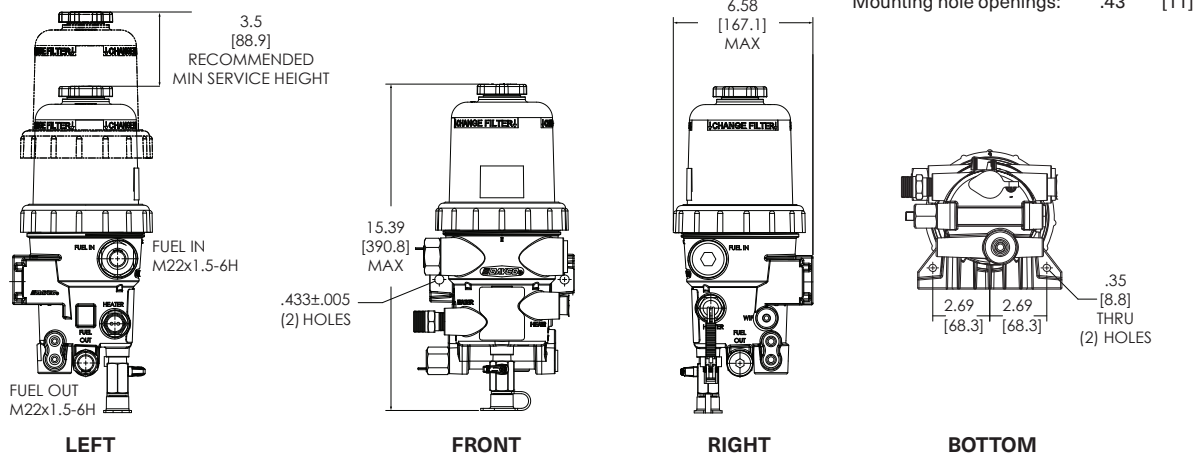

Emulsified water removal	SAE J1488 is 96.9%
Dirt holding capacity	89 grams

Port Interface

Fuel-in	M22x 1.5-6H
Fuel-out	M22x 1.5-6H

Dimensions

Dimensions are in inches [millimeters]
